REMASTERED 2018

YUM!

Welcome to the Baldi's Basics Multiplayer Remake Prototype! This prototype was created to demonstrate somewhat working multiplayer in Baldi's Basics In Education And Learning. Compared to the previous prototype, this version has a lot of improvements, although expect some bugs and unfinished character/item functionality since its still a prototype version. I hope you enjoy playing this new prototype, and gameplay videos are welcome! Credit to mystman12 for creating Baldi's Basics and to WowzaboiModder for making the Baldsum sprites used in the v2 prototype test build. Links Gamebanana Download, Gamejolt Download, Discord Server Join Link, though this tutorial for how to join/create a server was made in an older prototype, the way you do is still like this: Sonic Time Twisted is a Sonic the Hedgehog fan game modeled after Sonic CD and Sonic 3& Knuckles. Simply download the archive and extract it to any folder. Note: Baldi Tower Defense Is No Longer In Development And Will Not Be Worked On Any Further. Welcome to Baldi Tower Defense! Baldi Tower Defense is a baldi's basics fangame where you have to defend yourself from waves of evil students and other enemies using characters, also known as towers. Some of the features and game modes Baldi Tower Defense has are: When you first play the game or after you've reset your data, you'll be prompted to create a new player account. Your player account saves and keeps tracks of all your data such as levels you've completed in story mode, characters you've unlocked, your current profile picture, and more. Story Mode is the main gamemode, in which you and Baldi have to rescue your friend who File name 2 has taken by progressing through levels. Beating maps in Story Mode is also the only way to unlock certain characters and other gamemodes. Achievements are earned by completing objectives in the game (such as beating certain levels and finding secrets) and can be viewed in the Achievements section of the main menu. You can click on an unlocked achievement's icon to open a screen with more info about that achievement. Endless Mode is a gamemode where you test your skill by seeing how far you can get in one of the maps. If you get to wave 15 or higher in an Endless Mode level, you will have an option to submit your score to the game's leaderboard. The current leaderboard stats can also be viewed from Endless Mode. The player which is #1 in the leaderboard at the end of a week will get a reward. Controls Shift - Hold Down While Moving Around In A Level To Speed Up Click (PC)/Tap (Mobile) - Interact With Secrets, Buttons, Placed Characters, etc. The Rest Of The Controls Can Be Viewed By Enabling Hints Ingame! Links You can find links to Baldi Tower Defense related content below: Gamebanana Page Gamejolt Page Baldi Tower Defense Trello Page Thanks for supporting the mods and games I've created in the past, and although this is only an alpha version, I hope you will enjoy playing this game! Then click on the executable file in the extracted folder to start the game! For Android Users Download the Baldi Tower Defense Alpha 1.2.1 (Android) file. If you get prompted about downloading from unknown sources, go to your devices settings and allow them. When the download is finished, find the game's apk on your device and tap on it to start the game! If when trying to install an update an "app not installed" error comes up, uninstall the previous version you had and then try installing the update again. It is recommended you turn off install from unknown sources after the installation is finished. For Modders For people who want to make mods for the Windows version of the game, download the Baldi Tower Defense Alpha 1 (Modding Kit) file and extract it to a folder with 7Zip or WinRAR. You'll find everything you need to mod the game in the folder, along with a copy of the game itself. Baldi's basics full remastered is a very big decompile based on Baldi Open Modding Tool! Hide And Seek you need to collect all the notebooks and pass through 3 different floors. In Camping you need to help baldi "keep the fire going" and collect as many points as you can.
