Emerson 3kva ups with battery price. Emerson 40 kva ups specifications. Convert kw to kva for ups. 1800 kw to kva. Emerson 1kva online ups datasheet.

Get Best Quote Approx. 18,500 / Piece Get Latest Price The Liebert GXT4 1000VA (1kVA) UPS system is a true on-line uninterruptible power supply with 6m runtime at full load with battery extension pack options for longer runtimes. The UPS provides a pure sinewave no-break output and protects critical IT loads from power disturbances caused by blackouts, brownouts, sags, surges or noise interference. The UPS up to 3kVA has a compact 2U design, Eco-mode for the highest efficiency operation, user replaceable 'hot-swap' batteries and controllable power to multiple devices via two independently programmable pairs of sockets and the optional Liebert MicroPOD for maintenance. The Liebert GXT4 is compatible with the Emerson Network Power software monitoring suite, racks and rack PDUs. Typical applications for a Liebert GXT4 UPS system: network workstations, servers, network closets, large network peripherals and VOIP hardware Features Flexibility: two controllable socket groups, a rotatable multi-language LCD display, automatic frequency sensing, rack and tower mounting flexibility, multiple communication options (SNMP, Modbus and Relay) and Frequency conversion capability. High Availability: advance early warning of UPS system status, integrated and extended battery runtime, overload capability, periodic battery testing, replaceable hot-swappable batteries, input power-factor correction, internal automatic and manual bypass capability, intelligent battery management, input circuit breaker and lighting and surge protection. Lower Total Cost of Ownership: high output power factor (0.9) to maximize power availability, eco-mode for increased efficiency, Energy Star qualified models, wide input voltage to minimize battery usage, intelligent fan operation, two-year standard and extended warranty protection. Communications for Power Monitoring, Control and Preventive Maintenance: Liebert GXT4 offers a variety of communication options, providing flexible monitoring, control capabilities and preventive maintenance. These include: an optional SNMP/Webcard for UPS monitoring and control and optional Modbus and Relay cards, Liebert MultiLink automated system shutdown software and Liebert Nform monitoring system. L NX 3-P ® ™ IEBERT HASE The Liebert NX is a true on-line, double conversion, three-phase UPS system that delivers complete, centralized power protection for mission-critical systems. Designed to meet the high availability power needs of a wide variety of IT applications, the UPS com- bines a rack form factor, advanced operating fea- tures and low cost of ownership. • Increases growth flexibility with Softscale™ technology, plus the ability to parallel modules for increased capacity and redundancy. • Achieves higher availability by reducing the number of UPS units required to power your data center. • Reduces total cost of ownership through the use of longer life batteries and simplified preventive maintenance. UPS: 40-120 VA, 60H K INPUT Voltage Voltage Range without derating Frequency Range Current Distortion Current Limit Current Walk-In Power Factor Surge Protection ENVIRONMENTAL Operating Temperature Non-Operating Temperature Relative Humidity Operating Altitude Acoustical Noise (full load) 80kVA 120kVA External Battery Cabinet Battery Manufacturer UPS12-100MR C&D UPS12-150MR Technologies UPS12-210MR Enersys , 480VAC - S P Z ITE 480VAC, 60Hz 3-phase, 3-wire plus ground +15%, -25% 57-63Hz 3% maximum reflected THD at full load 140% of full load input current 20 seconds to full load Programmable, 0 to 30 seconds >0.99 lagging at full load >0.98 lagging at half load Sustains input surges without damage, per criteria listed in IEC 61000-4-5 UPS: 32° to 104°F (0-40°C) Battery: 68° to 86°F (20-30°C) -13° to 158°F (-25° to 70°C) 0-95% non-condensing Up to 6,500 ft. (2,000m) without derating
